Maximum stitch length 4mm	Stitch lock-off button	Dust cover
5 piece feed dog	Speed control slide	Machine weight 5kg

Function Buttons and Stitch Chart

Located in one area, for ease of use. Select stitch using the LCD screen, then edit stitch width and length as required. The machine can be operated without the foot control, simply use the Start/Stop button. The sewing speed can be controlled using the speed control slider.

Built-in Needle Threader

Makes threading the needle a breeze. Simply pull down the needle threader, the hook goes through the eye of the needle, the thread is hooked and as the needle threader goes up, the thread is pulled through the eye of the needle.

Additional Accessories

Even Feed Foot use for specialty fabrics that are challenging to sew. This foot has upper feed teeth that work together with the machine feed teeth, to evenly feed the fabric while stitching. Quarter inch seam foot: patchwork piecing and narrow 6mm seams. Large Extension table - see picture

Large Extension Table

This table is packaged in the machine carton. The extended work-area is fantastic for those larger sewing projects. Each of the 4 folding legs are adjustable, individual legs can be adjusted to compensation for uneven work surfaces.

Drop Feed

When the accessory box is removed from the front of the machine, you have access to the drop feed lever. Also, with the accessory box removed you have a free arm which allows easier hemming of trouser legs, sleeves or sewing baby garments.
